

# FreshersCTF Writeup Guide

## What is a Writeup?

A writeup is a small document/video or any kind of resource indicating how you solved a particular challenge. Some examples can be found here <https://ctftime.org/event/633/tasks/>.

## Creating a writeup?

Writeups tend to contain the following details.

- Challenge Title
- Challenge Description
- Challenge Category
- Challenge points
- How many solves
- Overview of how you solved the challenge
- Who wrote the solution

## What is Markdown?

Mrkdown is a lightweight markup language used for creating pretty documents and easily being able to be converted into other formats such as HTML. You can find syntax here <https://github.com/adam-p/markdown-here/wiki/Markdown-Cheatsheet>.

This is how I would like the write-ups to be formatted.

More bellow ->

## Template?

# (Challenge Name)

| Points | Category |

| ----- | ----- |

| 200 | Example |

### ## Description

Place here the exact description of the challenge.

### ## Solution

```Format is up to you```

Use bullet point lists

- \* Example

- \* Example

Use these cool looking boxes `HI`

Use these cool looking boxes

```

Hello

```

Use numbered lists

1. Example

2. Example

### ## Author

Link your social media here if you really want to

| Author | Twitter | LinkedIn |

| ----- | ----- | ----- |

| name | @name | /name |

Only link what you feel comfortable being public

### How?

Please use this <https://dillinger.io/> website to build your writeup. You can copy and paste the template into it and it will render the document immediately. Once you are finished let one of the committee know or send it to me as a “.md” file via discord.

You can access the FreshersCTF dashboard via <http://178.128.43.47:8000/>
